ABOUT TOWN. The Chinese New Year will commence on Mon day next, the 9th instant.

Our attention has been called to the fact that Mr. Bird whose sudden death we noted last week died Saturday instead of Friday. From all parts of Oahu come reports of abun-

dant showers, thriving farms and fast growing crops. It promises to be a good year. The Honolulu list of voters as revised and corrected is said to contain over 2,000 names. It is probable that not over 1,500 votes will be polled.

Tuesday of last week the brisk trades suddenly left ns and a dull and listless air overhang the town, causing every one to pant for breath. A mospheric changes affect us more than we know.

From the other islands reports are received that and are any and any the analysed that at the the elections are exciting very general interest and that more than the usual proportion of votes will

> One of the rollers of the Waibse Mill broke last week. The repairs were promptly made by the Honoinlu Iron Works, the rollers shipped by the steamer Likelike vesterday, and the mill will be in opera-tion again this week.

money out of the elections, for the numerous candidates for legislative honors are lavish of print-ing, both circulars and ballots. At this office over 20,000 had been struck off up to Monday night. To-day the elections take place. Let every reader see to it that his vote is duly east. Remem-

for several days, and his old cases were all getting better. Such word is far more refreshing than a shousand theories showing that the town ought to be healths. Nature is made up of compensations. Those who suffered last week from the heat and heavy

clouded atmosphere perhaps had some comfort in looking at two or three exceptionally fine sunsets, when the sky took on tints and colors beyond the highest skill of the artist to depict. The recently arrived Portuguese, or at least a faction of them, are making themselves very disagreeable and a nnisance, by begging from door to door. Probably when they are all apportioned out as servants or otherwise, the annoyance will be done away with. But it is suggestive of what a

The law regulating the qualifications of electors ought to be changed, so that no tax receipt would be necessary at the poll, for as a rule they are nearly all collected by various candidates and not returned on election day till the voter has bound himself to poll the holder's ticket. Last week it is said that the carriage of one of our weighty people was about the country, and a lady therein collected a very large number of tax receipts.

Mr. R. F. Bickerton is putting up a very pretty ome for himself on his place near Mr. Preston's at the corner of Piikol street. One who returns after a ten years absence would not know the plains; the whole face of the country has been changed and beautified; it is far better than when cattle and horses had free range and used to gather fornightly rest in the middle of the street. Improvements continue and it is pleasant to ob-

serve that much more regard is paid to ornamentation than in years gone by. Perhaps this is owing to the improved machinery for doing fine wood work, which has been introduced by our enterprising mechanics. There are more reasons than one in favor of ornamental building; beside a affording work for mechanics, they are civilizing in their influence.

There has been some misunderstanding with reference to the last income of Portuguese, for some of them are charged with various expenses before leaving home, which they now think should be allowed instead of charged to them, and which they must pay back to their employer, who in the first instance pays all expenses to the government, which of course is proper. It only shows how surrounded with difficulties is the whole matter.

Mr. W. C. Lane is running for Koolauloa on this island. He is opposed by Mr. J. London Kesunui I. London, by the way, while on the witness stand recently, testified that his occupation was that of a soldier, not that he is a fighter, but that he is descended from a valiant race of warriors. If elected will he favor the \$10,000,000 loan and a cordon of forts bristling along our shores. He certainly has a soldierly and commanding figure.

A few days ago while loading a heavy box, weighing about aix tons, on board of a schooner, the side had been raised several inches by means of a long lever handled by several men. On the order to lower, all let go at once, except one little fellow, who was instantly thrown into the air, by the upward throw of the long arm of the pry. He came down unburt, spread out like a spider, on the heads of the men below. A great shout greeted his return from his unexpected experience in ed his return from his unexpected experience in flying, and a more astonished individual it would have been hard to find.

One of the pleasant things history tells about that old tyrant Xerxes is, that upon one occasion he was so delighted with the beauty of a plane tree, that he caused it to be hung with chains of gold. We are very much afraid that if Xerzes were to walk along some of our streets he would cause a few heads to come off, for the manner in which trees are trimmed here which is really little short of bitchery. takes this opportunity of informing the public generally
that he has determined, in accordance with the SPIRIT
OF TIMES to prove in the afficiation. OF TIMES, to prove to the utmost the Full and Actual Value of the Custi BOLLAR. For this purpose he has leased the large premises adjoining his Music Store, and has filled the same with a Large and Varied

STOCK OF NOVELTIES Of every conceivable kind and description selected from the Eastern Markets with taste and care. Bought at the lowest cash prices, in large quantities, direct from the manufacturers, he now offers each and every article in the Store

For One Dollar! It is a matter of impossibility for people who have hitherto bought goods here to realize the tremendous difference in the value of what they here got and what they can now get for the READY CASH DOLLAR! But the stubborn facts remain that what is now selling in the neighboring stores for \$2.50, can be obtained and selected from this large stock for ONE DOLLAR. The whole secret consisting in the fact—the goods are

Bought for Cash, Sold for Cash, No Bad Debts, No Losses, No Interest on Money, And the Motto of the Store is "SMALL PROFITS AND QUICK RETURNS."

To attempt t describe the varied beauties or excellencies of this stock would be impossible; but for the purposes of ordering, Geo. F. Wells has completed a Catalogue which he tinins and hopes will prove beneficial alike to Buyer and Seller. One thing he guarantees— EVERY ARTICLE IS SENT OUT IN PERFECT ORDER Every article is exactly as described in the Catalogus and will be readily exchanged if not approved of. The Catalogue will be added to by even mail, and as fres novelties arrive the public will be notified of the fact. OUR DOLLAR CLUB.

We have already been met with the objection that in-dividuals wanting one or two articles cannot get them in remote districts without much trouble and expense, and to obviate this difficulty we have devised the following Any number of persons desiring ten or more articles shall select from the Catalogue the Goods they require, and send their order, with the Cash, and directions to pack and forward to a directed person. This shall be done, and to the so named person the goods shall be boxed and packed with the additional Bours of ONE ENTRA ABTICLE IN EVERY TEN, as selected to constitute for the traphic of daily spin one, but here repay them for the trouble of delivering each to its respective owner. To prevent disappointment in ordering, it will be necessary to mention the articles specially desired, but to add an extra number to the list, to substitute, should any be out of stock at the time of ordering. Don't fail to send to Geo. F. Wells for Catalogue and Price List.

GEO. F. WELLS' GENERAL MUSIC STORE Piano Fortes, Organs, Musical Instruments, &c. Geo. F. Wells wishes his patrons to distinctly un-derstand that, while he is thus catering to their smaller wants, he has not neglected or forgotten the more in portant business of MUSIC IN ALL ITS BRANCHES. portant business of MUSIC IN ALL ITS BRANCHES, As is the only importer of the celebrated Weber Plano, Grand, Square and Upright, the purest toned, most elegantly fluished, and most brilliant Instruments ever introduced into these islands. These instruments he offers at the following prices: 8173 TO \$1,000. San Francisco prices for the same Plano \$100 to \$1,000. San Francisco costs, freight. \$75 From San Francisco costs, freight. \$75 From San Francisco to Honolulu. \$15

Total. \$00 We import direct from New York freight \$15; the San Francisco importer wants as profit, that we save, say is per cent. Thus we can save at least \$150 on the lowest quality, and more in proportion. Figures talk! All we ask is, come and see the instrument.

NOVELTIES. The greatest novelty ever introduced into these musicing Islands, was patented and introduced lately as the ORGUINBTE.

And is constructed on the principle of a Caninet Organ, and can be operated upon by any one, even a child, utterly unacquainted with music. There is no limit to either kind or quantity of music. It will play Hymn Tunes, Popular Airs, Quadrilles, Polkas, Walikas, etc., with a clearness and accuracy which few performers can equal and can be carried under the arm. The ORGUI-NETTE, with its automatic music sheets, represents both organ and accurate music sheets, represents both organ and organist, music, sheets, represents both organ and organist, music, musician and music teacher, and is admirably adapted for singing parties, dancing parties, evening entertainments, surprise par-lies and educational purposes, and is therefore

ties and educational purposes, and is therefore

The Most Wonderful Mechanical Instrument
of the Age.

The music can be changed instantaneously. The sets of
Quadrilles and other pieces are complete in quantity,
and mathematically correct in time; and as all the
changes of figures are printed on the sheet any one,
even a child without ear for music or musical knowledge, can provide the music, do the prompting, and so
far take the place of professional musicians as to call
forth the lament—"our occupation is gone." Musicians
are not everywhere available, and very few can afford to
engage them when they are available. The amount
usually paid them one night will buy our Orgainette,
and Music enough for every night in the year, without
the appleasantness and restraint caused by the presence
of strangers. The trifling cost of the music, the compact and convenient method of keeping it, and the econony of the whole arrangement, places the Orguinette
over five hundred per cent above any other mechanical
musical instrument in the world.

We purpose selling these Wondrous Mechanical Musical Instruments at \$25 to \$50 each, and the Music at
124 cents per foot.

Special Notice. Geo. F. Wells begs to notify the inhabitants of Hono-niu that he has purchased, under very peculiar circum-tances, a manufacture's stock of highly finished, well lesigned add elegantly manufactured

HOUSEHOLD FURNITURE At a large discount from the prime cost for cash. Hav-ing no space for this class of goods, he will sell at once to the earliest bidder these goods at pricas hitherto un-precedented at the lowest or most rainous of anction sales. The stock comprises— Lounges, Arm Chairs, Tables, Parior Seta Bedroom Sets, Tables Extension Tables, Chairs of every kind, &c., &., &c.

THE AMERICAN SEWING MACHINE Seven Thousand Five Hundred Dollars soorth of American Sewing Machines sold here in less than Two Years.

No greater proof of the value of an article than its stendily increasing sales. In all this large number only one has been returned for repairs. All our Machines Fully Warranted for 5 Years. All our machines Fully Warranted for 8 fears. It is not our object to state that it is the best machine in the world; but in justice to it, and our integrity, we know of no superior for Family use. We do not push the sale of these Machines, but keep a full assortment at our Ware Rooms, and respectfully call your attention to the fact. We hope you will call and examine the superior merits of this Machine which has become so immensely popular. Its merits are:
Simplicity of Construction; Few parts, which obvious the possibility of getting out of order, and the simplicity of threading, which at once commends it the Inexperienced.

Important Notice. In conclusion, I would draw your attention to the fact that, mine being the only Music Store in the Kingdom, my facilities for getting the Kewest and Best Selection of Goods appertaining to Musical Instruments and Music in all its branches, are superior to those of any other Importing House on these Islands: and as my expenses are small. I can and will give a larger assortment, and at Lower Prices, than any other Importing House in this Kingdom.
